SUMMARY

Motivated and versatile Master of Computer Applications student with a strong foundation in data science and cloud technologies. Skilled in Python, Java, and Machine Learning, with hands-on experience in DevOps practices, including infrastructure automation with Terraform and containerization with Docker on AWS. Experienced in developing predictive models, data visualization, and managing databases. Eager to apply a diverse technical skill set to contribute to impactful projects and solve real-world problems in a dynamic organization.

PROJECTS

Mental Health Analysis & Therapy Recommendation

Python, Pandas, Scikit-learn, Matplotlib

- Developed a machine learning system to analyze questionnaire data, classify mental wellness levels, and recommend appropriate therapy.
- Engineered features and conducted exploratory data analysis (EDA) using correlation heatmaps and other visualizations.

Automated AWS Infrastructure Provisioning with Terraform

AWS (EC2, S3, RDS), DynamoDB, IAM, Terraform

- Automated the provisioning of a full AWS infrastructure stack including EC2, S3, and RDS using Terraform modules.
- Implemented secure state management with S3 and DynamoDB to maintain infrastructure integrity and history.
- Managed user and service access by creating and enforcing strict IAM policies.

EDUCATION

Master of Computer Applications (M.C.A.)

Dr. D. Y. Patil Institute of Management and Research, Pune

2026

SKILLS

- Languages:** Python, Java
- Cloud & DevOps:** AWS, Oracle Cloud, Docker, Kubernetes, Jenkins, Terraform, Ansible, Git, GitHub, CI/CD,
- Databases:** MySQL, MongoDB
- Data Science & ML:** Pandas, Scikit-learn, Matplotlib, Seaborn, Power BI

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 DevOps Professional
